SUMMARY

An experienced Photo Lab Technician and a photographer working in a wide range of photographic mediums including still life, straight photography, tableau, landscape, portraiture, and collage, as well as other avenues of expression through the art form. My passion for photographic exploration has invited me to journey through and learn from the world of photography. I am open to what comes next on this diverse network of possibilities, grateful for the opportunities I have experienced, and willing to embrace the next steps.

EXPERIENCE

My Own Color Lab, New York, NY

Jan 2023 – Present

Fine Art Photo Lab Technician – Full Time

- Digital printing, analog darkroom printer (both B&W and c-printer), retouching, color correcting, inspecting prints, packaging prints, darkroom instruction, customer service, maintaining darkrooms, distributing equipment, mixing chemistry, scheduling and booking, cashier, opening and closing the lab, assisting customers and clients.
